

# DALE CHIHULY at the NEW YORK BOTANICAL GARDEN

Artworks by world-renowned artist Dale Chihuly are now on view at NYBG in his first major garden exhibition in New York in more than ten years. *CHIHULY*, showcases more than 20 installations and includes drawings and early works that reveal the evolution and development of Chihuly's artistic process during his celebrated career. Set within NYBG's landmark landscape and buildings, this sensory-filled exhibition is a must-see throughout the changing seasons from spring through fall.

The Garden's dramatic vistas become living canvases for work created specifically for NYBG, showcasing Chihuly's signature organic shapes in brilliant colors. Among the singular sights is a monumental reimagining of his storied 1975 Artpark installation: three new works enliven the water features of the Native Plant Garden and the Enid A. Haupt Conservatory Courtyard's Tropical Pool, reflecting the interplay and movement of color and light.

*In addition to the guided tour of the exhibit you will have time to explore the Gardens on your own*
