

HAMILTON'S HARLEM

with tour guide **Jimmy Napoli**

Hamilton's years in Harlem influenced him dramatically, yet also transformed forever Harlem itself as a community. Beginning with his outstanding military resilience in the face of insurmountable odds, through his last years of his

life reeling from unimaginable personal loss and political expulsion, Alexander and Elizabeth both left their impression and spirits enshrined in the progression of the community.

This tour tells Hamilton's story from an intimate look into the life of the man himself, and the incredible work he achieved in his brief lifetime.

We will visit Morris-Jumel Mansion, uncovering the wealth of history the house has to offer and explore the early years of Hamilton's life, from his childhood in the West Indies to the Battle of Harlem Heights.

From the mansion we will walk from Washington Heights to Hamilton Heights, discovering the Sugar Hill section and examining the neighborhood during Hamilton's time, and today.

Jimmy Napoli, Tour Guide

The tour will visit Hamilton Grange, the only home Alexander Hamilton ever owned. Here we will discuss Hamilton's tireless work after the war, his bitter battles with the other founders and the many victories he achieved as well as the groundswell of events leading up to the fateful "Interview in Weehawken".
