

Marion and Norman Tanzman Center for *LifeLong Living*

Adult Programming Plus Baby Boomers & Beyond

As we progress through the many stages of life, our expectations of excellence become more and more refined. What greater pleasure could there be, having endured the highs and lows that life brings, but to be in an inspiring state of the art building, participating in relevant activities with old and new friends. **Baby Boomers & Beyond** programming at the JCC offers adults who are retired, semi-retired or still working a wide variety of opportunities to make new friends, strengthen relationships, explore new interests and pursue lifelong hobbies while expanding their horizons, and developing new skills.

The expansion of the JCC and the creation of the Marion and Norman Tanzman Center for *LifeLong Living* will provide:

- Comfortable, welcoming, appropriate places to meet and socialize on the 1st floor
- Accessible program spaces for all programs on the 1st floor
- The opportunity to offer multiple programs simultaneously
- New classes in Fine Arts, Music, Fitness, Technology and others
- Rooms designated for Mah Jongg, Canasta, Bridge and other games
- A new full-service kosher Kitchen with an accompanying eating area
- Expanded scheduling and offerings of more challenging interactive games, like Pickleball, Badminton, Health & Wellness classes and special events
- 'Stay and play' is our new philosophy
